Artists guide to MEASSO site authoring

Go to top right of home screen and click "Log in". If you have not, you can register here <u>https://measocc.teachingforchange.edu.au/user/register</u>

Then select the Map page. On the right hand menu select "Add content"

There may be many types of content available to you.

Select Mappable Items if you see more than one option

Article
Use <i>articles</i> for time-sensitive content like news, press releases or blog posts.
Mappable items
Geolocation Demo content type
Basic page
Use <i>basic pages</i> for your static content, such as an 'About us' page.
Profile
Please create a profile content item that will go under this menu to describe your background and what you bring to the project in terms of knowledge you hold and share

Enter details and you can use Basic HTML (described in list below) or Full HTML to do more interesting pages

	Author: mapping_admin

The problem is we still have to enter geo-location manually, hope to change soon so you can enter a place name

You can get the location of a place by putting a pin on Google Earth and getting the lat and long from their information screen

To edit an entry already made

Select Content on top menu. Your last page should be on top of the list
